

Turner & Cole

Riesling 2005

The perfect dry white wine. It's richly textured, despite the relatively low (**12.7%**) alcohol, very zesty and bright (**with a pH of only 2.89!**), minerally, nicely crisp and endlessly, deeply complex. The winery from whence this hails (some consider it Australia's best) has been making great dry Riesling for over 50 years. They consider the **2005** one of their best and most classic Rieslings ever. And the winemaker who selected this for us says it's the single best dry Aussie Riesling she's ever tasted.
